<b>Office Action Summary</b>	<b>Application No.</b> 10/516,796	<b>Applicant(s)</b> BESSELINK ET AL.	
	<b>Examiner</b> BRANDON JACKSON	<b>Art Unit</b> 3772	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

### **DETAILED ACTION**

This Office Action is in response to amendments/arguments filed 6/18/2009.  
Currently, claims 9-13 and 15-16 are pending in the instant application.

### ***Response to Arguments***

Applicant's arguments with respect to claims 9-13 and 15-16 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 9-13 and 15-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Johnson et al. (US Patent 6,203,511) in view of Jagodzinski (US Patent Application Publication 2002/0133108). Johnson discloses an orthopedic, knee

Art Unit: 3772

device (104) for supporting the function of a human limb comprising a structure with two substantially rigid parts (36, 58) couple to each other by a hinge means (10), a fastening means (38, 106) for temporary fastening to a limb part, a bounding means (54) and stop means (22) for limiting the pivoting movements the hinge to unrestrained movement within a chosen range (col. 6, lines 18-21) of motion. The hinge (10) is able to move unrestrained in a direction parallel to the knee joint. The fastening means (38, 106) are two divisible rings. Johnson fails to disclose a bounding means that is flexible and tensively strong. However, Jagodzinski teaches a knee orthotic device (1) comprising a bounding means (7) comprising a cable (8) that is flexible and tensively strong to restrict the movement of the knee. Therefore, it would be obvious to one of ordinary skill in the art at the time of the invention to modify the Johnson device with the bounding means, as taught by Jagodzinski, in order to provide the joint with more stability and prevent sudden abutment of the joint, which could be painful to the user.
